If GEA's acceptance of an offer is received late by the Supplier, the Supplier shall promptly inform GEA thereof in writing, failing which the Supplier shall remain bound by such offer.

3. Prices, Terms of Payment

- 3.1. The agreed prices shall be binding and shall be DDP (Incoterms®), plus the statutory value added tax at the rate applicable at the time of delivery. The prices shall include everything that the Supplier must affect in order to fulfil its delivery and/or performance obligation to the agreed destination, in particular, but not limited to, packaging, transport, freight, unloading, insurance, customs duties, taxes, assembly costs and other ancillary costs, unless otherwise agreed in writing.

If one or more of these details are missing and, as a result, GEA's invoice processing in the normal course of business is delayed, the payment deadlines set forth in Section 3.3 shall be extended by the period of the delay.
- 3.5. Unless otherwise agreed in the Contract, the original invoice shall be sent in duplicate copy
 - 3.5.1 Either electronically to the communicated central email address shared by GEA (preferred),
 - 3.5.2 or alternatively, in case electronic sending is not possible via post to the address specified by GEA in the purchase order.
- 3.6. For the timeliness of payment, the receipt of a corresponding transfer order at the bank of GEA is sufficient. Bank charges and related expenses shall be borne by the Supplier.
- 3.7. Payments by GEA shall neither constitute acceptance of the Deliveries nor acknowledgement of the settlement of accounts or recognition of the Deliveries as free from defects and/or in time.
- 3.8. Claims of the Supplier arising from the Contract may only be assigned to third parties with the prior written consent of GEA.
- 3.9. GEA shall be entitled to set-off and retention rights without limitation.

3.12 GEA reserves the right at any time to require a performance guarantee in a form acceptable to GEA in respect of the Supplier's obligations under the purchase order.

3.13 If GEA makes any advanced payment to the Supplier then the Supplier shall provide GEA with an "on demand" advanced payment bank guarantee from a bank and in a form acceptable to GEA,

4 Deliveries

4.1 Unless otherwise agreed, deliveries shall be made on a DDP basis, including unloading at the place of delivery designated in the Contract ("**Place of Delivery**"). If the Place of Delivery is not specified and unless otherwise agreed, delivery shall be made to GEA's place of business. The Supplier shall enclose all documentation required under the Contract as well as other necessary documents free of charge with the Deliveries.

Unless otherwise agreed, the Supplier is not entitled to partial deliveries or partial services.

4.2 The Supplier shall pack the Deliveries in accordance with GEA's packing instructions and requirements. In any case, the Deliveries shall be packed and secured by the Supplier against any transportation damages. The Supplier shall insure the Deliveries for transport. In addition, the packaging must be suitable to protect the Deliveries against deterioration, such as rust or corrosion, for a period of at least six (6) months, unless a longer period has been agreed. The packaging shall be marked in such a way that the contents of the goods, the number of pieces, the container/carton number and the weight (net/gross) can be read from a distance of one (1) meter. All wood packaging materials, including but not limited to pallets, shall conform to ISPM15.

4.3 Each Delivery shall be accompanied by a delivery bill in duplicate. All delivery and shipping documents shall include (i) GEA's respective purchase order number, (ii) the date of the purchase order, and (iii) if available, the item number specified by GEA, (iv) the place of delivery, and (v) the manufacturer's name and address, (vi) item description, (vii) carton quantity, lot/batch, and information regarding any required pallet exchange at the Supplier's facility on all paperwork. Failure to provide this information shall entitle GEA to refuse acceptance of Deliveries, and/or delay payments.

4.4 To the extent required, the Deliveries shall be UKCA marked and be compliant in all respect with UKCA requirements.

5 Delivery Dates, Delays

5.1 Agreed delivery dates and deadlines or completion dates and deadlines for Deliveries (hereinafter "**Delivery Dates**") shall be contractually binding. Achievement of the Delivery Dates requires that the Deliveries are handed over to GEA at the Place of Delivery on the respective Delivery Date. If the Deliveries require Acceptance, the respective Delivery Date is met, if the Supplier makes the conforming Deliveries available to GEA on the Delivery Date ready for Acceptance, and GEA confirms Acceptance. Premature deliveries are not permitted, unless GEA agrees to an early delivery in advance in writing. The mere unconditional acceptance of an early delivery by GEA shall not affect the originally agreed delivery date. Payment periods in accordance with clause 3.3 shall only be applied from the originally agreed Delivery Date(s).

5.2 As soon as the Supplier recognizes circumstances which may prevent a duly and timely delivery, he has to inform GEA immediately in writing, stating the reasons and the expected duration of the delay. GEA is entitled to demand partial delivery from the Supplier without incurring additional transport

costs, to the extent that possible delivery delays can be reduced by such action. The obligation to comply with Delivery Dates shall remain unaffected.

5.3 If the Supplier is in default of meeting the Delivery Dates or other deadlines agreed upon in the Contract, GEA is entitled to claim or deduct liquidated damages of 1% for each commenced week of delay, subject to a maximum of 5% of the total price of the purchase order. Further claims for damages shall remain unaffected.

5.4 In case the Supplier fails to make the Delivery or makes the Delivery late, any rights GEA is entitled to pursue any other remedies whether under contract or at law, including termination of the Contract.

6 Acceptance, Transfer of Risk

6.1 Deliveries shall only be subject to formal acceptance if this has been expressly agreed between GEA and the Supplier and is included in the Schedules (the "**Acceptance**").

6.2 Unless otherwise agreed, GEA may – without prejudice to any other remedies – declare Acceptance in any case up to 14 days after receipt of the conforming Deliveries. The trial commissioning or use of Deliveries shall not in itself constitute Acceptance. Partial Acceptances are generally excluded. Partial Acceptance shall only take place upon GEA's request if the Deliveries would otherwise be definitively withdrawn from subsequent technical inspection due to the progress of executing the Contract. In all other respects, GEA's rights and obligations in respect of Acceptance shall be governed by the Contract and any other rights and remedies at law.

6.3 In the case of Deliveries without installation and assembly, the risk shall pass to GEA upon handover of the Deliveries at the contractually agreed Place of Delivery. In the case of Deliveries which also include installation and assembly, the risk shall pass to GEA upon Acceptance of the Deliveries.

7 Intellectual Property Rights, Licenses

7.1 Irrespective of whether the Deliveries are subject to Acceptance by GEA, GEA acquires full legal ownership of the Deliveries at the time of the handover of the Deliveries at the contractually agreed Place of Delivery, unless otherwise agreed. By payment of the purchase price, ownership of the Deliveries shall pass from the Supplier to GEA at the latest. GEA is entitled to mix, process or combine Deliveries delivered in the ordinary course of business with effect for itself and also to resell them.

7.2 The Supplier grants to GEA an irrevocable, royalty free, non-exclusive and transferable right of use, unlimited in time, territory and content, to all copyrighted contents or contents protected by intellectual property rights contained in the Deliveries. This includes the use in its own- or third-party operations, either by itself or by third parties, as well as their reproduction, distribution, presentation, exhibition, processing, or transformation.

8 Drawings, Plans, Tools

8.1 The Supplier shall provide to GEA free of charge any and all drawings and other technical documents prepared or required for the execution of the Contract.

8.2 GEA's approval to drawings, calculations and other technical documents shall not affect the Supplier's sole responsibility for Deliveries in accordance with the Contract. Unless the Supplier objects in writing, this also applies to proposals and recommendations by GEA as well as to modifications discussed between the Supplier and GEA.

8.3 The Supplier shall provide GEA with all drawings, documents and other records in accordance with the Contract or as otherwise required by GEA. In addition, all documentation required for repair, maintenance and servicing of the Deliveries shall

also be supplied. All documentation shall be in the English language. Upon GEA's request, the Supplier shall provide all drawings, documents and other documentation free of charge also in electronic form, if available.

- 8.4 The Supplier grants GEA the right to use drawings, documents, other records for all purposes related to the completion, operation, modification, maintenance and repair of the Deliveries or any part thereof. This right includes the right to sublicense to GEA's customers and/or to persons designated by GEA or its customers.
- 8.5 All execution documents, drawings, devices, tools, models and other items ("**Supplies**") which GEA provides to Supplier for the performance of the Contract, or which are manufactured for contractual purposes and separately invoiced to GEA by Supplier shall remain GEA's property or shall become GEA's property. The Supplier shall mark them as GEA's property, keep them in safe custody, insure them to a reasonable extent against theft, fire, water or any other damage, and use them only for the purposes of the Contract. The costs of their maintenance and repair shall be borne by the Supplier. The Supplier shall immediately notify GEA of any damage to such Supplies. They are to be returned to GEA immediately upon GEA's request, at the latest, however, after execution of the Contract. The transfer to third parties is not permitted. The Supplier does not acquire any further rights to the Supplies. GEA reserves all rights to drawings made according to its specifications and to processes developed or arising from it.
- 9 Quality Assurance, Retention of Documents, Audit
- 9.1 The Supplier shall independently check GEA's specifications, drawings, calculations and other requirements for any ambiguities, contradictions and/or errors within the scope of his expertise and technical knowledge. The Supplier shall immediately notify GEA of any concerns, also regarding the use assumed under the Contract or intended by GEA, so that this point can be resolved by mutual agreement.
- 9.2 The Supplier shall establish and demonstrably maintain a well-functioning quality assurance system which complies with the latest standards of the relevant Supplier industry, at least according to DIN EN ISO 9000, 9001. The Supplier shall carry out the quality assurance measures, including the required documentation, on his own responsibility. The Supplier shall keep the documentation in accordance with the legal and contractual requirements, but at least for a period of ten (10) years.
- 9.3 Prior to delivery, the Supplier shall carry out a careful outgoing goods inspection, or if required by GEA a FAT (factory acceptance test). Deliveries which have not passed these checks or FAT may not be delivered by the Supplier. The defective Deliveries shall be clearly and easily recognizable marked on the packaging units as failures and shall be transported by the Supplier to a restricted warehouse. As soon as the Supplier becomes aware of quality problems or other defects of its Deliveries, the Supplier shall immediately inform GEA thereof in writing; in doing so, the Supplier shall in particular also inform GEA of the potential health and safety risks emanating from its Deliveries, the impairment of use as well as any data and information enabling the affected deliveries to be identified.
- 9.4 If GEA has placed several purchase orders with the Supplier for certain Deliveries, the Supplier shall inform GEA without delay of any quality-relevant changes to the Deliveries, in particular concerning the manufacturing process or components, constituents or basic materials, even if these changes are within the scope of the specification, before accepting the next order.
- 9.5 Upon prior timely written request, GEA shall be entitled to inspect the documentation and to gain access to its premises for the purpose of inspection of the quality assurance system and measures by independent auditors during normal business hours. The inspection shall not release the supplier from its liability for defects. GEA has a legitimate interest to review inspection and test reports of the Supplier concerning a Delivery to GEA. The Supplier is obliged to allow such review and inspection.
- 10 Spare and Wear Parts, Technical Support and Maintenance
- 10.1 The Supplier undertakes to offer GEA any suitable spare and wear parts for its Deliveries for a period of at least ten (10) years as of delivery at standard market conditions. Unless otherwise agreed and reasonable for the Supplier, the same prices shall apply to the spare and wear parts during this period as agreed in the context of the original Delivery.
- 10.2 Should the Supplier realize that it cannot deliver suitable spare and wear parts to GEA for more than ten (10) years at the conditions specified in clause 10.1, it shall notify GEA thereof without undue delay in order to give GEA another opportunity to order spare and wear parts in due time.
- 10.3 The Supplier also undertakes to offer GEA ongoing technical support and/or maintenance of the Deliveries for a period of at least ten (10) years from delivery.
- 11 Defects of Material and Defects of Title, Serial Defects
- 11.1 The Supplier warrants that the Deliveries are free from defects in quality and workmanship at the time of passing of risk. The Deliveries shall in all respects comply with the Contract and all applicable laws, directives and standards (amongst others the EU Regulation (EC) 1935/2004 on materials and articles intended to come into contact with foodstuffs is expressly referred to), in particular with the relevant safety regulations, occupational health and safety regulations as well as environmental and fire protection regulations and ordinances, as well as with the state of the art in science and technology, be of high quality in type and grade and be suitable for the use assumed under the Contract. – but at least for the common use. If the Supplier has provided a preliminary sample which has been approved by GEA, the Deliveries must additionally comply with the properties of the preliminary sample.
- 11.2 If the Deliveries are defective in material or workmanship, GEA shall be entitled to pursue any rights or remedies under the Contract or otherwise at law. In particular, GEA shall be entitled, at GEA's option, to request from the Supplier either the remedy of defects or the delivery of a new Delivery free of defects within a reasonable period of time. The Supplier shall bear all costs incurred in connection with the repair or replacement of defective Deliveries (including transport, handling, sorting, installation / removal, material and labour costs) and shall indemnify and hold harmless GEA from and against any costs, losses or damages incurred by GEA arising from such defects. In all other respects, GEA shall be entitled to the statutory warranty claims and rights without restriction.
- 11.3 The costs incurred by the Supplier for the purpose of inspection and rectification shall be borne by the Supplier even if it turns out that there was actually no defect. GEA's liability for damages in the event of an unjustified request for rectification of defects shall remain unaffected.
- 11.4 A release of a product sample, drawings or other technical documents declared by GEA shall not affect any warranty rights of GEA. Payment, inspection or reception of all or part of the Deliveries shall not constitute acceptance of the Deliveries by GEA and shall not imply any waiver of GEA's rights under these Terms.
- 11.5 GEA's legal obligation to inspect the Deliveries after delivery is limited to the inspection of externally visible transport damage and deviations in identity and quantity as well as other obvious

defects. The notice of defects is in any case timely if it is sent within five (5) Banking Days from the receipt of the Deliveries by GEA and is subsequently received by the Supplier. In the case of hidden defects, this period shall run from the time of their discovery. GEA shall have no obligations to inspect and give notice of defects beyond those set forth in this Section 11.5.

11.6 GEA is entitled to remedy defects itself at the expense of the Supplier and without prejudice to the Supplier's liability for defects if there is imminent danger or special urgency. In such a case GEA will inform the Supplier in advance – to the extent possible and reasonable – about the respective defects and the reasons for the self-remedy.

11.7 The following shall apply in addition to defects of title:

11.7.1 The Supplier warrants that the Deliveries are free from defects in title at the time of transfer of ownership. In particular, the Supplier shall ensure that third parties cannot assert any rights in relation to the Deliveries, in particular any rights in intellectual property such as patent rights, trademark rights, utility models, design rights and copyrights (hereinafter referred to as "IPR") or any other restrictions at law, or that IPR of third parties are infringed. To the extent necessary, the Supplier shall ensure that it has obtained and granted to GEA all rights, licenses and authorizations of the holders of the IPR required for the use of the Deliveries by GEA.

11.7.2 If a third party asserts a claim against GEA for infringement of an IPR with respect to the Deliveries, the Supplier shall – without prejudice to GEA's further rights – at its own expense and at its option either (i) obtain a right of use for the Deliveries, (ii) modify the Deliveries in such a way that the IPR is not infringed or (iii) replace the Deliveries with new Deliveries which do not infringe the IPR.

11.7.3 The Supplier undertakes to indemnify and hold harmless GEA against all claims of third parties for IPR infringement – including the associated costs of legal defence. This obligation includes all existing and future claims of third parties asserted against GEA worldwide.

11.8 The following provisions shall apply in addition to the warranty for defects if the Deliveries (including materials, components or (sub-) systems) show a frequency of similar defects which is significantly outside the values usually expected or stated by the Supplier (hereinafter "**Serial Defects**").

11.9 In the event of a Serial Defect

- (i) the Supplier shall submit and implement at its own expense a plan for the elimination of the defect, which includes measures to compensate for the behaviour of other components of this delivery which is to be expected due to the similarity of the damage that has occurred.
- (ii) GEA may require the replacement of all Deliveries of the affected batch unless Supplier can demonstrate that the Serial Defect is excluded for the remainder of the batch.
- (iii) the Supplier shall bear all costs and expenses incurred by GEA due to the replacement of the Deliveries to the extent the Supplier is responsible for the Serial Defect.

12.1 The contractual defects liability period for defects in the Deliveries shall be 36 months from Delivery. The Supplier's liability for latent defects shall be in accordance with the provisions of English law.

recommence upon delivery of the new Delivery or manufacture or completion of the rectification work. This does not apply insofar as Acceptance is required for the new Delivery or manufacture or rectification. In this case, the limitation period shall recommence with the confirmed Acceptance by GEA.

12.3 A notice of defect given by GEA within the defects liability period shall suspend such period until GEA and the Supplier mutually agree on the remedy of the defect.

13 Indemnification and Insurance

13.1 Without prejudice to any other claims, the Supplier shall indemnify and hold harmless GEA and its Affiliates, agents, directors, officers and employees against all claims for damages of third parties and of GEA based on defective Deliveries of the Supplier, in particular but not limited to those based on product liability, or based on the infringement of IPR or copyrights in connection with Deliveries of the Supplier, to the extent that the Supplier is responsible for the defect of the Deliveries or the infringement of IPR. In this respect, the Supplier is also obliged to reimburse GEA for all costs and expenses incurred because of GEA being obliged to recall a product, carry out a field action, issue a warning or otherwise inform GEA's customers or third parties due to a defect in the Supplier's Deliveries, unless the Supplier is not responsible for this defect. GEA will inform the Supplier – to the extent possible and reasonable – about the content and scope of any recall measures. In all other respects the Supplier is liable in accordance with the relevant statutory provisions and under the Contract

13.2 The Supplier shall indemnify and hold harmless GEA and its Affiliates, agents, directors, officers and employees against all claims for damages arising from any act, omission, non-performance or breach of any of the Supplier's obligations under the purchase order or Contract.

13.3 The Supplier is obliged to maintain insurances in accordance with the relevant Schedule.

14 Rights to Documents and Records, Confidentiality

14.1 Insofar as GEA provides the Supplier with illustrations, moulds, templates, samples, designs or design proposals, drawings, know-how, business or technical documents, software, calculations or other documents and records (hereinafter referred to as "**Documents**"), GEA reserves all intellectual property rights thereto, such as patent, trademark, utility model and design rights as well as copyrights. The Supplier may use the Documents without GEA's prior consent only to the extent that this is absolutely necessary for the respective contractually intended purpose. Ownership, including copyright, of the Documents shall always remain with GEA.

14.2 The Supplier is obliged to keep confidential from third parties all technical, operational and business information received from GEA or an Affiliate within the scope of or in connection with a Contract for Deliveries, in particular know-how and trade secrets, (hereinafter "**Confidential Information**"), unless the Confidential Information, (i) is generally known or becomes generally known without the Supplier having breached such confidentiality obligations, (ii) was demonstrably already lawfully known to the Supplier prior to receipt and without any obligation to maintain confidentiality, (iii) is lawfully disclosed to the Supplier by third parties without any obligation to maintain confidentiality, or (iv) to the extent GEA has previously consented in writing to the disclosure of the Confidential Information. C. Special conditions - Software

30. General

30.1. In case the Deliveries include any software, the following special conditions for software ("Software") shall apply in addition to the Terms to all Contracts between GEA and the Supplier.

31. Delivery of Software

31.1. Software shall be delivered free of charge in a common and readable format corresponding to the current state of the art, unless a specific format has been agreed in the Contract. Prior to the delivery of Software or data carriers, the Supplier shall check them with a state-of-the-art virus scan program and ensure that the Software and/or data carriers do not contain any malware (software with malicious functions), computer viruses, Trojan horses, worms or similar. Prior to delivery, the Supplier shall ensure by means of state-of-the-art software security tests and prove to GEA that the Software does not contain any critical weak points that could damage the integrity and confidentiality of the systems and data of GEA, its customers or those of connected third parties.

31.2. Software shall as far as possible be delivered with open interfaces, including a detailed functional

description and a description of communication interfaces between the software and other software and hardware interoperating with it. The purpose is to enable GEA and/or GEA's customer, either by its own efforts or with third-party assistance, to correct any errors and to maintain, operate, change and/or further develop the Deliveries and the software delivered by the Supplier, including in connection with outsourcing, directly and without the Supplier's assistance. The purpose is also to ensure that the Supplier's software and the other parts of the Deliveries are compatible with products delivered by a third party to GEA and/or GEA's customers. Thus, the Supplier shall ensure that all Software delivered is accompanied by a source code which is of a quality that meets standards of good IT practice and which allows persons with the necessary skills to perform the activities above directly.

- 31.3. In addition to the above, the Supplier shall provide such technical advice, data and documentation to enable GEA, GEA's customers and/or any third party to maintain or further develop the Software if they wish. The documentation must – as described in detail in 31.4 – be so detailed and designed that it is possible for persons who have the required knowledge to maintain and further develop the software with the source code.
- 31.4. The Supplier shall also deliver the complete documentation that is necessary or appropriate for the use of the Software. For Software components, the documentation must consist of a user documentation, a brief description, and a technical documentation. The user documentation for installation and administration must describe all necessary processes in such a way that it is comprehensible to trained persons. In addition, the documentation must also describe typical and foreseeable error situations and how to rectify them. The documentation must comply with the standards customary at the time of the software installations. The documentation shall be provided to GEA free of charge in machine-readable form and in the language specified in the purchase order as well as in English.
- 31.5. GEA shall be entitled to copy and use the documentation for the purposes of the Contract, in particular also for resale to GEA's customers and for training purposes, as required.

If the Supplier intends to use Open-Source Software, it shall inform GEA in advance of the associated license terms and hand them over to GEA in advance. The handover of the license terms for Open Source Software is an essential contractual obligation of the Supplier if Open Source Software is used. The Supplier warrants that the use of Open Source Software does not impair the contractual or intended use of the Deliveries.
- 32.2. The Supplier warrants that the Software does not contain any
- Open Source Software in the Deliveries, unless the Supplier has provided GEA with the specific license terms for the Open Source Software in the language specified in the purchase order and in English prior to the conclusion of the Contract and GEA has given its written consent to the use and delivery of the Open Source Software after having become aware of the license conditions and prior to the use of the Open Source Software. In this case, Supplier warrants to GEA that the Open Source Software accepted by GEA is the only Software included in the Deliveries that falls within the definition of

Open Source Software set forth above. Supplier further represents and warrants to GEA that all license obligations that exist with respect to the Open Source Software accepted by GEA have been fully satisfied by Supplier. Finally, Supplier warrants to GEA that Supplier has provided GEA with all relevant license texts and all necessary source codes as well as build scripts for each version of the Open Source Software delivered to GEA to enable GEA, its Affiliates and distributors as well as GEA's customers to create an executable version of such Open Source Software.

- 32.3. In the event of a breach of this clause 32, Supplier shall indemnify GEA against and assume the defence of all claims, damages, losses and costs incurred by GEA arising out of the breach of this clause 32. This indemnity obligation shall also apply to all of GEA's Affiliates, distributors and GEA's customers in respect of claims made against them and damages, losses and costs incurred by them.
33. **Right of Use, License**
- 33.1. Supplier permits GEA to market and resell the Software and any accompanying hardware either alone or as part of a package to its customers.
- 33.2. Unless otherwise agreed, the Supplier grants GEA, its Affiliates and GEA's customers a non-exclusive, transferable, sub-licensable and irrevocable right of use, unlimited in terms of time, space and content, to use the Software in any hardware and, if applicable, with other software or, if applicable, to have it used by third parties for GEA its Affiliates and GEA's customers (e.g., as outsourcing or hosting) upon delivery or provision of the Software. In the latter case, GEA shall inform the Supplier thereof in writing in advance and, at the Supplier's request, provide the Supplier with the third party's declaration that the Software will be kept secret and used exclusively for the purposes of GEA, its Affiliates or GEA's customers. This shall also apply in each case to patches, updates, upgrades and new versions of the Software provided by the Supplier as well as the associated documentation.
- 33.3. The Supplier grants GEA in particular the non-exclusive, transferable, sub-licensable, irrevocable, temporally and geographically unrestricted right: (i) to use the Software itself and to have it used, in particular to reproduce the Software for the purpose of connecting it to any other software and/or hardware, to make backup copies and for the purpose of installing, loading, displaying and running it on any hardware; and (ii) to distribute and make accessible the Software itself or through third parties stand-alone or in connection with other software and/or hardware by means of any medium, including online, and to sub-license the rights set forth in 33.2 and 33.3 to GEA's Affiliates and distributors as well as to GEA's customers with the right to further sublicense.
